Proposed traffic calming on Collin Lane

Dear Sir / Madam

Please find attached a plan showing proposals for 'Priority Give Way' traffic calming on Collin Lane.

I am writing on behalf of Gloucestershire County Council to give you a chance to comment on these proposals which are being done as part of the new housing development by Newland Homes.

As you will see on the plan, it is proposed to construct two 'build-outs' to create traffic calming chicanes either side of Collin Close. The first chicane will be outside the property "Redland" where priority will be given to traffic travelling towards the village. A second chicane, constructed on the other side of the road outside "Hopefield", will give priority to those travelling out of the village. In both cases, those drivers without priority will obviously have to give way to on-coming traffic.

Chicanes such as those proposed for Collin Lane are a proven way of calming traffic within a 30mph speed limit and have been used successfully throughout the country and neither of the 'build-outs' will affect access to either of the adjacent properties.

I would welcome your views on this scheme by Friday 3rd March 2017 please, but in the meantime, if you would like any more information, please email gcc.tro@amey.co.uk or 'phone 08000 514514.

Yours sincerely

Chris Townley
